

# OUR SERVICES

With a full-time service staff available to you Monday to Friday we are happy to help you with your pool service needs. Our experts will be able to assist you by phone and on-site to ensure your pool is working to the best of its abilities. Don't know the problem? Take a picture and send it to us, we'll know!

## Acapulco Equipment Loan Program

Like a car or a home, a pool is difficult to budget with constant repairs and upgrades. We try to alleviate those concerns with the Acapulco Equipment Loan Program. Upon installation, the equipment is yours to borrow with a reoccurring, affordable monthly payment. If a repair is needed, Acapulco will repair or replace your parts with **no additional costs**. It's that easy!

## Pool Operator Courses

Feel like being a little more independent? Want to take control of your facility? Acapulco offers a Certified Pool Operator (CPO) and a Professional Pool Operation (PPO) course to allow you to operate your pool as safe and effective as possible. Our courses are recognized nationally with the National Swimming Pool Foundation (NSPF) so that you know that you've received the best training possible.

# OUR PRODUCTS

Our industry experience and buying power allow us to recommend and procure the highest quality products at the most competitive prices. With one of the most robust supply chains in North America, we can build or repair your pool to your customized needs. It's Acapulco's desire to assist you in every facet relating to your pool's

## Go Green!

As a socially responsible company we offer a wide variety of products and technologies to help you go green. Explore the potential for heat saving technologies or improve your air quality. Reduce your chlorine usage and eliminate chloramines and other antigens like cryptosporidium with the addition of Ultra Violet disinfection. It's also cost effective!

Timing Equipment  
Accessibility  
Competition Equipment  
Deck Equipment  
Pumps  
Flow Sensors & Meters

Bulkheads  
Automation Units  
Moveable Floors  
Ultraviolet Systems  
Filters & Filter Accessories

## VGB Compliance

As of December 2008, the VGB Pool Spa Safety Act requires all suction outlets or drain covers to meet the latest ASME/ANSI standards. Acapulco Pools is committed to assisting you to meet these standards. We'll determine your pump system's flow and supply VGB compliant grate covers to make your pool as safe as possible while also ensuring legislative compliance.

## Variable Frequency Drives (VFDs)

As part of our green initiative, Acapulco is pleased to showcase our VFDs. These important tools allow your pool to work at its optimal efficiency. VFDs save you money by controlling energy use depending on your pool's requirements. Imagine having cruise control on your pool. This piece of equipment will save you money and energy- it pays for itself in a matter of months!
