

ACAPULCO

SPLASH PADS

Acapulco splash pads transform imagination into new dimensions in water play with dynamic custom designed water parks that deliver adventure, visual excitement and imaginative fun. They are quickly becoming the most popular way to cool off on a hot summer day. They are the safest water play option with universal accessibility because there is zero water depth. Children of all ages get hours of enjoyment out of spray grounds without the need for lifeguard supervision.

Acapulco offers products that use and OMNIPOD system which provides operators with convenient interchangeability. Our water features are made out of fiberglass material which will withstand the harsh elements of our environment and all CSA standards for exterior play will be met. The splash pad is controlled by the "RainBrain" a computer system designed to conveniently operate your system.

Fibreglass

Fibreglass is used in the manufacturing of automobiles, airplanes, and boats. It is durable, weather resistant and lightweight. Footings and bonding are not required when using this material.

OMNIPOD

The OMNIPOD system allows for the ultimate versatility in your spray grounds. You can remove features in the off season which allows you to make your park multi-functional. Features can also be upgraded or changed over time.

RainBrain

The RainBrain is a unique technology that allows you to control and monitor your splash pad remotely. You can customize the choreography of your water features creating a more sustainable play environment.

Acapulco has the ability to theme your splash pad with creative creatures. Looking for a sea theme? No problem. The Big Kahuna Wave, Mr. Claw, and Old Salty are just a few of the products that can turn your splash pad into a beach oasis. These spray features can also be added to your leisure or kiddie pools enhancing the level of play and interaction.

Acapulco is the complete solution for your splash pad project from design to equipment to installation. Our expertise in building aquatic facilities allows our team to provide the most tailored solution for your needs. Let Acapulco build an extraordinary water play environment for your community.
