

**SECTION VI - TOXICOLOGICAL PROPERTIES**

<b>Routes of Entry</b>	Ingestion.
<b>Acute Effects on Humans:</b>	No specific information is available in our database regarding the other toxic effects of this material for humans. This product is a severe eye irritant. Prolonged exposure may result in skin burns and ulcerations. Over-exposure by inhalation may cause respiratory irritation.
<b>Chronic Effects on Humans:</b>	<b>CARCINOGENIC EFFECTS:</b> Not available. <b>MUTAGENIC EFFECTS:</b> Not available. <b>TERATOGENIC EFFECTS:</b> Not available. Toxicity of the product to the reproductive system: Not available. There is no known effect from chronic exposure to this product. Repeated or prolonged exposure is not known to aggravate medical condition.
<b>Synergistic Materials:</b>	

**SECTION VII - PREVENTIVE MEASURES**

<b>Gloves:</b>	
<b>Eye Protection:</b>	
<b>Respiratory Protection:</b>	
<b>Other Protective Equipment:</b>	Splash goggles. Full suit. Dust respirator. Boots. Gloves. A self contained breathing apparatus should be used to avoid inhalation of the product. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.
<b>Engineering Controls:</b>	
<b>Leak and Spill Procedure:</b>	Use appropriate tools to put the spilled solid in a convenient waste disposal container. Oxidizing material. Stop leak if without risk. Avoid contact with a combustible material (wood, paper, oil, clothing...). Keep substance damp using water spray. DO NOT touch spilled material. Prevent entry into sewers, basements or confined areas; dike if needed. Call for assistance on disposal.
<b>Waste Disposal:</b>	Recycle, if possible. Consult your local or regional authorities.
<b>Storage Requirements:</b>	Oxidizing materials should be stored in a separate safety storage cabinet or room.

**SECTION VIII - FIRST AID**

<b>Eye:</b>	IMMEDIATELY flush eyes with running water for at least 15 minutes, keeping eyelids open. COLD water may be used.
<b>Skin:</b>	NO known EFFECT on skin contact, rinse with water for a few minutes.
<b>Inhalation:</b>	Allow the victim to rest in a well ventilated area. Seek immediate medical attention.
<b>Ingestion:</b>	Remove dentures if any. Watch for an obstruction in the victim's mouth. Remove if possible what is causing the obstruction but do not force fingers or a hard object between the victim's teeth. Have conscious person drink several glasses of water or milk. INDUCE VOMITING by sticking finger in throat. Seek immediate medical attention.
